

Year 3 Spring 2

Mrs Chauh, Miss Farley-Wood, Mr Spellman, Miss Cox and Miss Peach.

This half term is we are continuing our geography learning and producing our own climate change project.

The children have learned so much already about Europe and North America. They've identified human and physical features in different areas of the world and know what the equator is and the Northern and Southern Hemispheres are.

Literacy: all the children have entered the Young Writers Competition held by the Coventry Building Society. The children's ideas were truly amazing and they have shown themselves to be incredible writers. We will continue to master the skills of non fiction writing throughout the Spring half term.

Maths: everyday we practice multiplication facts and every Friday we have a test. The children are doing super and are loving earning their certificates. In lesson time, the children are showing their understanding about multiplication in many different ways including arrays, equal groups and repeated addition.

Reading: we will be applying our Reading knowledge to many different text types including stories, non fiction texts and poetry. We are really focussing on building the children's reading stamina and answering different types of questions. The children are still reading on Myon in the day and completed quizzes. **Reading diaries and reading books must be back in school every Thursday, so that we can send them home with a new book on Friday.** PE WILL BE EVERY WEEK ON THURSDAYS and FRIDAYS. PLEASE SEND YOUR CHILD INTO SCHOOL IN THEIR PE KIT. Please can you child wear their school jumper, school hoodie or cardigan. Thank you!

Thank you for reading! The Year Three Team ❤️

Dates
World Book Day

Easter Egg
competition
04.04.22
Easter Assembly
07.04.22
Inspire to Aspire
08.04.22

Reading

Please hear your child read 3 times a week. It will really help them to be successful.

Half termly project.

There will be a project to choose from every half term based on our theme learning. It will need to be handed in before Easter.

Every Friday there will be arithmetic and spellings to complete and practice.

This will be on your child's Showbie.

Every Friday, your child will come home with their iPad. On Showbie will be their home learning to complete over the weekend.
